Mr Wilkes talked to the group about school values and how we apply them in daily life. We made a poster about Our School and its values which included our unique value of sustainability. We then had to present the poster to the other schools. We had a tour of Candleby Lane School and finished by being partnered up with Ernehale Primary School. We will be visiting them in the New Year and they will come to see us. School Council Reps are to remind their class to collect stamps over the Christmas holiday and bring them into the School office to support the RNIB.
